Coming Soon! Sip & Swipe Café®

What exactly is a Sip and Swipe Café?

It is a place where you can get a beverage to sip and a **FREE** lessons on how to use a tablet (swipe). Tablets provided for class or bring your own.

OK but what is a tablet?

It is a small computer with everything inside one little unit. It is compact, portable easy to use, light weight and touch screen meaning you use your fingertips to turn pages and look things up.

Why should I be interested?

This Café will offer a brand new, quick, easy, FREE, safe way to learn. It is designed for those who have never touched (or wanted to touch) a computer!

Why do I need to use a computer, anyway?

It will give you access to fun and information, on the Internet – from TV shows to magazines, puzzles, recipes, newspapers, discounts, Medicare sign-up, Social Security address change, drug comparison, local news, and friends and family messages.

Advance registration is required.
